

Centre for Appropriate  
Technology Limited

# TRAINING SERVICES

Sustainable and enterprising communities of Aboriginal and Torres Strait Islander people underpinned by appropriate 'fit for purpose' courses.

The Centre for Appropriate Technology Limited (CfAT) is a registered training organisation (number 0857) offering nationally recognised training certificate courses in areas of automotive, construction, civil construction, engineering, essential services and rural operations. Courses on scope: <https://training.gov.au/Organisation/Details/0857>.

We can also offer fit for purpose non-accredited training to build self-reliance for residents in the short term. We recognise that by living in remote locations where access to goods and services is limited, residents may require a broad range of skills and knowledge to maintain community infrastructure and build on economic opportunities. Our training team has the flexibility to develop a 'custom fit' training program (nationally recognised or non-accredited to be determined during the initial contact). However, this means you can choose from a wide range of units to suit the capability and capacity needs which will benefit your organisation or community. Speak to one of our friendly team members about developing a training program today.

## ADDRESS

DESERT PEOPLES CENTRE VIA  
DESERT KNOWLEDGE PRECINCT  
SOUTH STUART HIGHWAY  
ALICE SPRINGS NT 0870

RTO NUMBER:0857

We conduct our training and assessment in accordance with the ASQA principles of assessment and rules of evidence.

Government subsidies for training programs vary by State and Territory jurisdictions. Government subsidised training places are generally available to those without a qualification up to a Certificate III level especially for those referred through an employment service provider. There may be subsidies available to employers to support the cost of training their employees. Employers are usually expected to contribute to the cost of training.
