Certificate II in Civil Construction

Registered Training Organisation
Number 0857

about CfAT

The Centre for Appropriate Technology (CfAT Ltd) is an Aboriginal and Torres Strait Islander not-for-profit technology and innovation company that works across remote Australia.

CfAT Ltd is also a Registered Training Organisation (RTO 0857) offering nationally recognised certificate courses in Automotive, Construction, Essential Services, Rural Operations and Engineering. In addition to the list above we offer short courses in chemical handling, food hygiene and operating vehicles such as a 4WD and heavy vehicles.

CfAT Ltd's training programs support Aboriginal and Torres Strait Islander people gain skills and capabilities for employment and career progression.

CfAT Ltd has fully equipped metal, woodwork and automotive workshops at our premises in Alice Springs and deploys well equipped and experienced trainers for programs on communities. On-site accommodation may be available.

about THE COURSE

Entry requirements: There are no entry requirements for this qualification.

This qualification reflects the role of individuals working in an operational role in civil construction, who undertake a prescribed range of tasks using limited practical skills and fundamental knowledge in a defined context working under supervision.

Occupational opportunities in the civil construction industry include:

- Civil construction general hand
- Earthmoving plant operator
- Construction labourer - civil
- General hand

This certificate allows individuals to develop practical skills in the following areas:

- identifying, locating and protecting underground services
- measurements and calculations
- manual excavation
- levelling
- reading and interpreting plans and specifications.

Safely use and maintain tools and equipment used in civil construction, including:

- hand and power tools
- small plant and equipment
- concreting materials and equipment.

Develop skills and knowledge required to work safely and follow WHS policies and procedures in the Resources and Infrastructure Industries.

about FEES

Government subsidies for training programs vary by State and Territory jurisdictions. Government subsidised training places are generally available to those without a qualification up to a Certificate III level especially for those referred through an Employment service provider.

There may be subsidies available to employers to support the cost of training to their Employees. Employers are usually expected to contribute to the cost of training.
